Draft Design of Our Extension

- Used Figma to create our design
- Decision to use Figma
 - Easy-to-learn
 - Used Figma in the past
- Simplistic design
- Less focus on appearance for this phase

Features Built During This Phase

- Sidebar displaying to-do list
- Context menu
- Add task
- Check/Cross off tasks
- Delete Task

Technical Highlights

- Change in implementation due to bugs
- Unfamiliarity with JS or HTML

Reflection on Teamwork/Process

- New project atmosphere experience
- Coordination of new features
- Better documentation

Nadir Abdusemed

Plan for final demo

Change code to be more object oriented less reliant on html.
Add date and time feature

Save task when tab is closed using storage. List themes and multiple list.

Make final demo and implement import task feature and push notification.

Polish features and cut unfit features for final demo.
